CELLULAR BLINDS

— SOPHISTICATED INSULATION —

With their unique shape and functional design, our stylish Cellular blinds take unpredictable Australasian temperatures in their stride.

Incredibly efficient, cellular blinds not only look great but also help keep energy costs down. Their unique honeycomb structure creates a thermal barrier between the room and window to provide additional insulation.

Cellular blinds are even more thermally effective when paired with Perfect Fit®.

A concertina-like aesthetic, Cellular blinds are creatively designed to shade both standard and irregular shaped windows.
