Louvolite is proud to design and manufacture in the UK. Our streamlined roller blinds are stylish, reliable and easy to operate with a smooth operating system that provides total control of the blind for all of your shading requirements.

All our blinds are made to measure to your unique specification. So whether it's one of our bold prints for your living room, a blockout fabric for the bedroom or a moisture resistant print for the bathroom or kitchen, you know you're in good hands.

We can even make your blind using energy saving fabrics with enhanced insulating properties. They reduce heat build up in summer and heat loss in winter, reducing heating and cooling costs in your home and saving you money.

We even have bathrooms and kitchens covered with our moisture resistant and Ultra-Fresh* treated fabrics.

Our designers are tasked with putting together an international fabric collection so our inspiration comes from all over the world.

We research a number of sources and influences when looking at trends: trade shows for fashion, textile and interior design, blogs, social media platforms, looking at social and cultural factors so that we can gain a feel for the needs of different markets.

It's also essential to monitor the fashion runways, as the trends filter down from the catwalk to the world of interiors. This way we cover all bases and can create a collection that has something for everyone.
